

Bring your imagination to life

Powered by:

Small Size, Big Idea

Easy

- Light weight to carry around for 3D printing
- Innovation-led print head for clear cut 3D printing and smooth filament molten

Design

- Transparent chassis provides safe covered to avoid heated parts exposed to user
- Multi-purpose printing software for 3D object printing
- Dependable framework to absorb vibration during 3D printing process

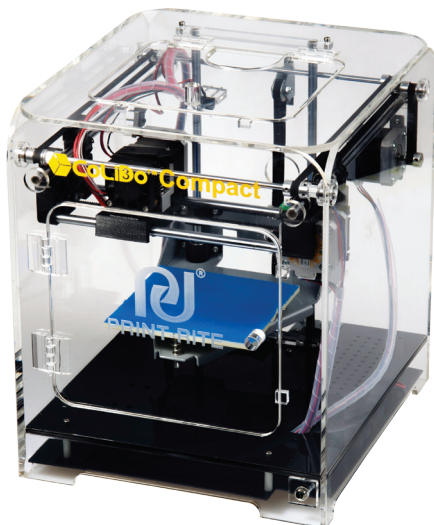

Operation

- Operation with PCB enables stable 3D printing process
- High-density metal framework structure absorb vibration during 3D printing process
- Pre setted platform

Specification

Print Technology	Fused Deposition Modeling
Nozzle Quantity	1
Build Volume	13*13*13 cm
Layer Resolution	0.1mm (100 microns)
Filament Material	PLA / ABS / TPU
Filament Diameter	1.75mm
Chassis	Acrylic
File Type	STL <> GCO
Supports	Window 7, Mac OS, Linux
Connectivity	USB

CoLiDo® Compact
