

BT8380-JPK

SYSTEM X™ JOINING PLATE KIT

Designed to fit BT8390 mounting rails to BT8380 support columns, the BT8380-JPK is a joining plate which is needed to assemble System X freestanding, mobile or bolt-down video wall solutions. The plate is fitted quickly and easily using the provided sliding nuts and countersunk screws, which allow the mounted rail to be positioned anywhere along the length of the column. A row height spacer (BT8390-SP) is also available (separately) to help position multiple rails when installing video walls, without needing to measure out the position of each BT8380-JPK.

SPECIFICATIONS

Steel thickness	4mm
Brackets supplied per pack	1
Colour	Black

FEATURES

- 1 Used for a variety of fixed, freestanding or mobile video wall installations
 - 2 Sliding nuts allow rails and columns to be positioned as required
 - 3 Also ideal for single and twin screen System X installations
 - 4 Multiple rows can be spaced apart using BT8390-SP Row Spacing Kit
- Connects BT8390 mounting rails to BT8380 vertical columns
 - Can be placed at any height on the column, and anywhere along the rail
 - TUV certified
